Desktop Media Uploader Crack With Serial Key

Desktop Media Uploader is an AIR-based application that allows you to easily upload multimedia items directly to your Umbraco site. In order to upload files to any Umbraco sites, the Desktop Media Uploader package has to be installed Umbraco is an open source content management system (CMS) platform for publishing content on the World Wide Web and intranets. It is written in C# and deployed on Microsoft based infrastructure. Once you sign in to the Desktop Media Uploader with an Umbraco user account with sufficient privileges you can simply drag and drop the media files you want to upload. Desktop Media Uploader honors user privileges, ensuring users can only upload files to folders they have access to. In addition, Desktop Media Uploader will disallow any file that is greater than the maximum file size allowed on the server, preventing unnecessary upload attempts. Once all your files are queued, you can send them to your website via the Upload button. Please note that if you are using anything other than IIS7, you will need to manually setup a mime type for the ".air" extension, which maps to "application/vnd.adobe.air-application-installer-package+zip" in order to be able to download the Desktop Media Uploader app. .. contents:: :matrix: #. Unzip the files to your desktop (check the readme for instructions) #. Download and extract the contents of the **Upload App** folder to your desktop #. Launch the **Desktop Media Uploader** application #. Login to your Umbraco user account #. Double-click **Upload** to begin uploading #. Wait until the upload is complete #. Select **done** in the top right corner #. Upload the **thumbnail** of the media file > Note that the thumbnail will be in JPG format #. For images, you will be able to select the *Type* of media item > For example: > - Image - For images only > - Video - For videos > - Flash - For Flash files > - Other - For a custom media type, click the "Browse" button and select a different file #. Click **Submit** #. Please be patient, this may take

What's New in the?
