fundamentos de acupuntura y moxibustion de china Special thanks for helping the cause: [tl;dr] Some time ago, one of my users asked me to translate Fundamentos De Acupuntura Y Moxibustion De China into English. He had enough free time and even wanted to give a share of the profit. I didn't expect this. It was great news to see it coming from him, and I answered that I would gladly do it, as long as it was not a lot of work, and we could share some profit too. I decided to share my translation, and asked the user to translate into French. He was kind enough to do it, and I was really happy to receive a. This is the message I received: Hi, I just wanted to share with you that I have completed my translation of Fundamentos De Acupuntura Y Moxibustion De China and I think it is not bad, so I'm going to post it on my social accounts with a link to this website. If you want you can take it from there. It would be nice to know if you think I did well. Best regards, Greg So now, what should I do to share this translation with the rest of the world? How can I reward him for his kindness and generosity? A: User in question was my co-worker. He was kind enough to help me out with this project, but he had already accepted his own translated version from another user, so I felt obliged to make a little bit of profit with this as a way of giving him some recognition. I still owe him big time for this, so if you want to use my version or his I'd be happy to share the profits. This time of year, there are a number of basic food recipes that I enjoy as comfort food. Cheesy Swiss Waffles, a crispy cookie sandwich with a creamy vanilla filling and a minty whipped cream is one of my favourites for breakfast. The idea of cream filling a cookie is pretty fabulous, and I hope you guys enjoy this as much as I do. It's my last waffle recipe for the month of June, because I have some great specials coming up, so be sure to check back in the next month for more creative ways to 4bc0debe42
